SUBJECT INDEX

Agar gel immunodiffusion
Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture 183
Alcelaphine herpesvirus-1
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
Amino acids
Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli* 263
Anti-inflammatory drugs
The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever 99
Antibiotics
Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline 253
Antibody
Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8) 293
Aujeszky's disease virus
Horizontal transmission of Aujeszky's disease virus from sheep to pigs 245
Bacteriology
A crude cytotoxin vaccine protects sheep against experimental *Pasteurella haemolytica* serotype A2 infection 175
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Bacteroides species from the oral cavity and oral-associated diseases of cats 275
Bacterial pathogens (Book Review) 291
Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin 325
Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs 373
Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli* 263
Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture 183
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361
Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets 283
Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages 337
Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis 351
Bacteroides species
Bacteroides species from the oral cavity and oral-associated diseases of cats 275
Bivens Arm virus
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141
Borrelia anserina
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361
Borrelia burgdorferi
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361

Bovid Herpesvirus-4
Production and characterization of monoclonal antibodies to Bovid Herpesvirus-4 305
Bovine adenovirus
A heteroploid permanent cell line originating from embryonic calf thyroid supporting the replication of all known bovine adenovirus serotypes 317
Bovine astrovirus
Cultivation and partial characterization of bovine astrovirus 113
Bovine cotonavirus
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217
Bovine ephemeral fever
The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever 99
Bovine virus diarrhoea virus
Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody 195
Breda virus
Seroepidemiology of Breda virus in cattle using ELISA 233
Brucella canis
Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs 373
Calcium ions
Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin 325
Cats
Bacteroides species from the oral cavity and oral-associated diseases of cats 275
Cattle
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
Paratuberculosis in cattle: a comparison of three serologic rests with results of fecal culture 183
Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody 195
Seroepidemiology of Breda virus in cattle using ELISA 233
The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever 99
Complement-fixation
Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture 183
Cowdria ruminantium
A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks 151
Culicoides insignis
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141

Cytotoxicity
Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin 325
Dogs
Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs 373
Ehrlichia risticii
Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline 253
ELISA
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217
Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture 183
Seroepidemiology of Breda virus in cattle using ELISA 233
Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets 283
Epitopes
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361
Equine influenza virus
Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8) 293
Escherichia coli
Effects of exogenous amino acids on the multiplication of porcine *Escherichia coli* 263
Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets 283
Goats
A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks 151
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Haemophilus pleuropneumoniae
Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages 337
Heartwater
A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks 151
Immunoblot analysis
Immunoblot analysis of the antibody response to ovine lentivirus infections 127
Immunoblotting analysis
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
Immunofluorescence
Cultivation and partial characterization of bovine astrovirus 113
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217

Mice
Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline 253

Monoclonal antibodies
Production and characterization of monoclonal antibodies to Bovid Herpesvirus-4 305
Monoclonal antibody
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361
Murine Potomac horse fever
Effect of antibiotics on clinical, pathologic and immunologic responses in murine Potomac horse fever: protective effects of doxycycline 253
Mycobacterium paratuberculosis
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Paratuberculosis in cattle: a comparison of three serologic tests with results of fecal culture 183
Mycoplasma gallisepticum
Differentiation of the vaccine F-strain from other strains of *Mycoplasma gallisepticum* by restriction endonuclease analysis 67
Ovine lentivirus
Immunoblot analysis of the antibody response to ovine lentivirus infections 127
Pasteurella haemolytica
A crude cytotoxin vaccine protects sheep against experimental *Pasteurella haemolytica* serotype A2 infection 175
Calcium ion involvement in the action of *Pasteurella haemolytica* leukotoxin 325
Pigs
Horizontal transmission of Aujeszky's disease virus from sheep to pigs 245
Antibodies to *Escherichia coli* J5 core glycolipids in gnotobiotic and conventionally reared piglets 283
Ponies
Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8) 293
Protein A-gold immunoelectron
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217
Replication
A heteroploid permanent cell line originating from embryonic calf thyroid supporting the replication of all known bovine adenovirus serotypes 317
Respiratory infection
Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody 195
Restriction endonuclease analysis
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Differentiation of the vaccine F-strain from other strains of *Mycoplasma gallisepticum* by restriction endonuclease analysis 167
Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis 351
Rhabdovirus
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141
SDS-PAGE
Characterization of *Brucella canis* protein antigens and polypeptide antibody responses of infected dogs 373

Differentiation of the vaccine F-strain from other strains of *Mycoplasma gallisepticum* by restriction endonuclease analysis 167
Shared flagellar epitopes of *Borrelia burgdorferi* and *Borrelia anserina* 361
Sheep
A crude cytotoxin vaccine protects sheep against experimental *Pasteurella haemolytica* serotype A2 infection 175
Analysis of restriction endonuclease fragment patterns of DNA from *Mycobacterium paratuberculosis* 189
Horizontal transmission of Aujeszky's disease virus from sheep to pigs 245
Immunoblot analysis of the antibody response to ovine lentivirus infections 127
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
Swine dysentery
Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis 351
Tibrogargan virus
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141
Ticks
A mouse lethal dose assay for detection and titration of *Cowdria ruminantium* (Kwanyanga strain) in goats and ticks 151
Toxicity
Toxicity of *Haemophilus pleuropneumoniae* to porcine lung macrophages 337
Treponema hyodysenteriae
Typing of *Treponema hyodysenteriae* by restriction endonuclease analysis 351
Vaccine
A crude cytotoxin vaccine protects sheep against experimental *Pasteurella haemolytica* serotype A2 infection 175
Virology
A heteroploid permanent cell line originating from embryonic calf thyroid supporting the replication of all known bovine adenovirus serotypes 317
Antibody isotype responses in the serum and respiratory tract to primary and secondary infections with equine influenza virus (H3N8) 293
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141
Cultivation and partial characterization of bovine astrovirus 113
Development of protein A-gold immunoelectron microscopy for detection of bovine coronavirus in calves: comparison with ELISA and direct immunofluorescence of nasal epithelial cells 217
Horizontal transmission of Aujeszky's disease virus from sheep to pigs 245
Immunoblot analysis of the antibody response to ovine lentivirus infections 127
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
Production and characterization of monoclonal antibodies to Bovid Herpesvirus-4 305
Protection against respiratory infection with bovine virus diarrhoea virus by passively acquired antibody 195
The effect of anti-inflammatory agents on the clinical expression of bovine ephemeral fever 99
Water buffalo
Bivens Arm virus: a new rhabdovirus isolated from *Culicoides insignis* in Florida and related to tibrogargan virus of Australia 141
Wildebeest
Immunoblotting analysis of the reaction of wildebeest, sheep and cattle sera with the structural antigens of alcelaphine herpesvirus-1 (malignant catarrhal fever virus) 205
